

Combi-Oven

Model: C and CPE 1.10

Computer Controlled "Boiler-less" Convection and Steamer Combination

BKI's CPE 1.10 shown with optional stand

C (Left) and CPE (right) Control Panel

Now you can steam, roast, bake, reheat, and proof products with just one unit. BKI's C and CPE 1.10 Combi-Oven features an integrated system of circulating hot air with injection steam features to ensure optimal cooking conditions for cooking over a full menu spectrum. The result is perfectly prepared foods, ranging from beef and fish to vegetables and rice and baked goods. Intelligent options such as the Simple Control Panel and the self-cleaning unit make the C and CPE 1.10 easy to use and maintain.

Standard Features:

- CPE offers 200 Programs each holding up to 10 process steps, as well as cleaning and de-scaling programs
- C offers 10 Programs with simple control for standardized menu applications
- Accommodate 10 full-size steam table pans or 10 half-size bun pans
- Integrated hand shower with extendable hose for quick and easy cleaning
- Temperature probe and core temperature control functionality
- Twin-latch safety handle
- Integrated system of circulating air and injected steam
