

BALLY

WOOD-WELDED®

LAMINATED MAPLE

INDUSTRY * SCHOOLS * INSTITUTIONS

Bally, the world's foremost manufacturer of Hard Maple laminates, presents the most complete line of laminated products. Exclusive Wood-Welded® tough "Butcher Block" construction offers the user the finest work surface available. Laminations are placed on edge and bonded into a single, warp resistant, self-supporting panel.

Edge grained maple gives the most perfect work surface for most applications. It is harmless to sharp tools, easy on delicate machine parts, and has no thin brittle or metallic surface to crack or chip under heavy blows. It can be refinished like new dozens of times because it is hard all the way through. No soft core!

BALLY Wood-Welded® MAPLE - The Finest Work Surface Available

BALLY BLOCK COMPANY

BALLY, PENNSYLVANIA 19503

BALLY CHOPPING BLOCKS

Bally Blocks are solid Maple throughout. Locked together by the famous Bally Wood-Welded process and finished in non-toxic oils and resins.

Style #16 Blocks are a full 16" thick (#14 - 14" & #12 - 12"). All have corresponding turned Maple legs for O/A height of 34".

SIZES:

Style #16		Style #14		Style #12

		30x30	30x30	30x30	30x30

STYLE A CUTTING BOARD

Fine selected edge grained laminations, Wood Welded and beautifully finished.

Available: 1 1/4"-1 3/4"-3" thicknesses in a host of sizes.

COVEDGE® BAKER'S TOP

The same sturdy Wood-Welded construction with coved edge corners and risers. The cove and risers are bonded and bolted to the top to form one solid unit (see illus.) Inside of the riser and front are rounded to eliminate sharp edges.

Lengths: 5'-6'-7'-8'-10'
Widths: 24"-30"-36"
Thickness: 1 3/4"

NOTE: Only Style "A" Boards and Co Baker's Tops are NSF Listed

BALLY COUNTER BLOCKS

These Bally reversible blocks have two fine rock-hard, end-grained, cutting surfaces. These are used in hundreds of standard or custom installations throughout the industry.

24x24x6

30x30x6

BALLY KNIFE RACKS

Constructed of solid Maple with separate slots for knife, steel or cleaver.

Wood Screws supplied for easy attaching to table or block.

STYLE H HEAVY CUTTING TABLE

A work surface and table that will hold up under the most rugged conditions. A beautiful edge grained laminated top securely mounted on the strongest base made. A wonderful piece of equipment for many types of work. Shipped knocked down, simple to set up.

Thickness: 1 3/4"-3"
Lengths: 4'-5'-6'-7'-8'-10'
Widths: 24"-30"-36"
