

950 Triple Spindle

# Drink Mixer

**S**pecially designed to meet the strength, durability and space requirements of any restaurant, institution or fast food chain, the Hamilton Beach Triple Spindle Drink Mixer offers three mixers in one space-saving unit. The three powerful, separate motors all operate individually. That means that any one motor can be easily removed for cleaning or servicing without affecting the operation of the other two.

The Triple Spindle Drink Mixer is so simple to operate that even the most inexperienced worker can handle it with ease. Just combine ingredients, place cup on the metal rest and select a speed. That's all there is to it. The automatic start and stop feature assures perfect operation everytime.

Clean-up and storage are a breeze too. Container guides are removable for easy cleaning and the flat cup platform provides convenient cup storage when mixer is not in use.

The powerful and convenient Triple Spindle Drink Mixer is just another reason why Hamilton Beach is the quality leader in commercial appliances.

Model 950 Triple Spindle

# Drink Mixer
